

Overview

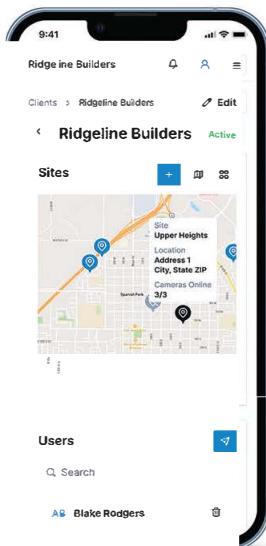

SiteStream's software gives you full command of your fleet from any device. Whether managing 1 or 100 trailers, our cloud-based platform puts security control, diagnostics, and alerts at your fingertips — with no on-site presence required.

Core Features

- **Live Multi-Camera Viewing:** Watch in real time from any device — PTZ and fixed views in one dashboard.
- **Remote PTZ Control:** Move, zoom, and control cameras from your phone or desktop with low latency.
- **Smart Motion Zones:** Customize activity zones to reduce false alerts and optimize monitoring accuracy.
- **Automated Alerts** Get notified via email, text, or app when motion is detected or health status changes.
- **Speaker & Light Activation:** Trigger lights and pre-recorded or live talk-down audio remotely for real-time deterrence.
- **Fleet-Wide Health Monitoring:** See the status of solar, battery, connectivity, and more across all deployed units.
- **Multi-User Permissions:** Easily manage access for teams, clients, or command centers — full audit logging included.

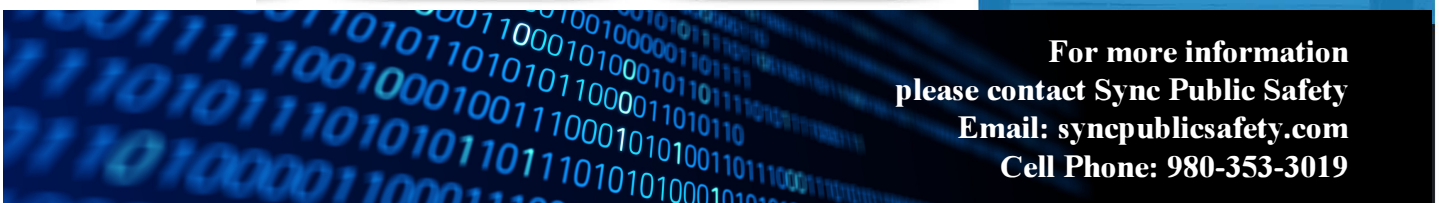

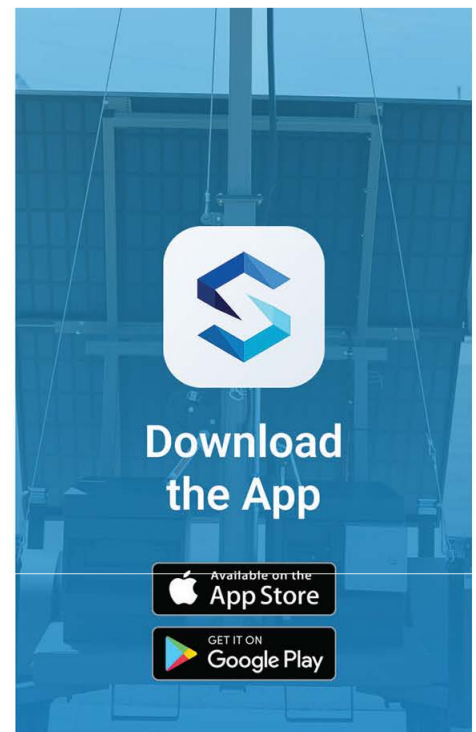

Effortlessly Manage Multiple Sites & Users

Monitor Activity in Real-Time

Your Jobsite, Always in Sight
